

HANDLER

THE RED WING "FLEX"®

MORE POWER

The Red Wing Flex is a 1/8 H.P. motor with more power at **low RPM's** and **High RPM's** than any 1/8 H.P. now available: (less noise - New frame design)

MORE "FLEX"

The Red Wing Flex shaft and sheath brings the first improvement to shaft and sheath technology in 25 years.

LESS MONEY

Handler makes their "Red Wing Flex" 1/8 HP motor with all its improvements available to you for less than the 1/10 HP motor and metal foot control sold by the leading Flex/shaft and motor company.

**MODEL 1920
INCREASED
PERFORMANCE
PRODUCTIVITY
PROFITS**

At rest

HANDLER BENT THE RULES

At work

Photos above show why Master Bench Jewelers we asked to evaluate Handler's new shaft told us the difference was "dramatic". Red Wing's new technology keeps the lubrication inside and flex material outside where it belongs.
