

The 60U Dust Collectors

The 60U dust collector is a workhorse for busy operations. The 60U is designed to maximize suction for two workstations simultaneously. The heart of the 60U is a ball bearing, capacitor start, brushless, industrially rated motor. The 1/2HP motor and blower wheel is rated to move 400 CFM (Cubic Feet per Minute) of airflow. Minor setup only, no installation or assembly required.

60U-0 - Dust collector only with clean out tray, 14 sateen cotton cloth filter bags and no other accessories.

60U-D - Dust collector with clean out tray, two 4' sections of 3" flexi-hose, 2 fishmouth suction inlets, 4 metal clamps, 14 sateen cotton cloth filter bags, and easy to use foot pedal to shake out and clean bags

60U-J - Dust collector with clean out tray, one 4' section of 3" flexi-hose, one 86J-1 large jewelers hood, 2 metal clamps and 14 sateen cotton cloth filter bags.

60UFC - Dust collector with clean out tray, two 4' sections of 3" flexi-hose, 2 fishmouth suction inlets, 4 metal clamps and one state-of-the-art pleated drum cartridge filter.
